

Developing
Tomorrow's
Programmers

Professional Programmer

An Exclusive
High End "hands-on"
Learning Program

Focus
on your career.

What is Professional Programmer

- It is a unique industry-oriented hands-on programming course designed to make you ready for the IT industry
- It is for **6 months duration**, combining learning and practicing
- Hands on approach with plenty of programming
- Practical multi-national concepts
- To be able to program Web applications and mobile applications
- To be able to work in a team in a corporate environment

 **Windows 10**
LAPTOP

Laptop **FREE*** with pre-installed Windows[®] 10 Operating System

Laptop image on the brochure is only present if an Laptop brand may vary.

Why a PP Course?

- Ordinary courses give bits and pieces of information and skills
- No hands on industry type experience
- Not enough system time for thorough practice
- No practicing professionals to guide on day to day basis
- No targets - learn at your own risk
- These programs give some technology, but they do not make you a professional programmer
- No team skills, no presentation skills, no SDLC...
- Habit of getting used to "notes", not "self learning skills"

Course Fee :

Please contact Center

- Easy EMI through credit card payment (6, 12, 24 months)
- Arrangement of Student Loans from various Banks
- Cost of the program is to provide the best possible environment and resources for a complete experience to the candidate
- Use of good quality content and practice sessions with already working professionals
- Time and infrastructure
- 6 months advanced programming diploma certificate
